RINAC
ENGINEERING EVOLUTION

BRINGING YOU CONVENIENCE, EFFICIENCY AND RELIABILITY

- Also available in
Semi Hermetic compressors
- Provision for capacity regulation
- Low and medium temperature racks
- Refrigerating capacity from starting 5TR
- Reduced field installation time and costs
- Modular construction allowing flexibility
for future expansions
- Continuous full load, trouble free operation capability
- VFD for optimisation of capacity
- Eco-friendly R404A/R134a refrigerant systems
- Air cooled/ water cooled condenser options

ENGINEERED WITH SPACE-AGE FEATURES

- Fitted with components of reputed make, thus, highly reliable
- Assembled in ISO certified factory, ensuring world class quality
- Reduced foot print as compared to an independent system
- Pre-engineered, pre-fabricated, factory-built and tested packages
- Simple and low-cost maintenance
- Rigid structure with minimal vibration
- Doubly protected safety features

AUTOMATED SWITCHING AND REMOTE CONTROL

- It maintains peak energy efficiency through automated monitoring and verification.
- It prevents product loss through optimized alarm management work flow processes.
