Seamless solutions for cold chain and modular construction

Rinac India Limited is an integrated engineering solutions company. Nothing excites us more than engineering end-to-end solutions for the cold chain and modular construction industries. We set no limits to curiosity, innovation, and ingenuity; constantly questioning perfection and asking ourselves 'What if?' and 'Why not' every day.

As a result, frontrunners in several industries come to us for total solutions in the cold chain and construction infrastructure. And they stay on for our domain expertise, technology leadership, service excellence, and customizing capabilities.

At Rinac, no requirement is too difficult; no challenge too complicated. We believe that each customer needs a solution, unique to his need, environment, and aspirations. And, we revel in creating new possibilities that address each requirement perfectly.
